EXPERIENCE

WITH A MULTISERVICES LTD

IT Engineer

Muhanga, Rwanda

Sept 2024 – Aug 2025

- Delivered direct IT technical support, hardware maintenance, network setup, and computer diagnostics.
- Assisted citizens with government e-services and digital administration through the Irembo platform.
- Maintained and managed office technology equipment including computers, printers, routers, and local networks.
- Conducted technology coaching, client onboarding, and software tool demonstrations for everyday users.

Bright Vision Training Center

Computer & Software Trainer

Rwanda

2024 – Present

- Conducted training sessions guiding learners through practical computer literacy and software engineering fundamentals.
- Designed course modules, hands-on programming exercises, and tailored training materials for diverse student cohorts.
- Supervised practical computer laboratory sessions, offering 1-on-1 code debugging and problem-solving assistance.

Open Source Kigali

Open Source Contributor

Kigali, Rwanda

2024 – Present

- Contributed to community open-source repositories, platform user interfaces, and backend service components.
- Participated in developer hackathons, knowledge sharing sessions, and community technical workshops.
- Collaborated on feature branches, pull requests, and automated testing suites via Git & GitHub workflows.

Solvit Africa – Code2Connect Fellowship

Software Engineering Fellow

Kigali, Rwanda

2024

- Completed rigorous software development fellowship covering modern TypeScript, React, and modular architecture.
- Built responsive user interfaces, state management flows, form validations, and asynchronous REST API consumers.
- Practiced agile development, clean code standards, Git version control, and peer code reviews.

EDUCATION

Mount Kigali University

Bachelor of Computer Science

Kigali, Rwanda

Sept 2025 – Present

- Developing solid foundations in algorithms, database engineering, system architecture, and software design.
- Active member of university technology community and programming study groups.

Ecole Technique Saint Kizito Musha

A2 Certificate in Software Development

Rwamagana, Rwanda

Sept 2021 – June 2024

- Graduated with practical training in database design, web application development, and software algorithms.

AWARDS AND HONORS (OR ACHIEVEMENTS)

Solvit Africa Code2Connect Fellowship

Fellowship Graduate Distinction

Kigali, Rwanda

2024

- Successfully completed competitive technical fellowship with high evaluation on project deliverables.

WITH A MULTISERVICES LTD

Service & Technical Support Recognition

Muhanga, Rwanda

2025

- Commended for high customer satisfaction in IT support, equipment uptime, and public Irembo services.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS
 - **Backend & APIs:** Node.js, Express.js, PHP, RESTful APIs, JWT Authentication, Middleware
 - **Databases:** PostgreSQL, MySQL, Prisma ORM, MongoDB, Firebase
 - **Tools & DevOps:** Git, GitHub, Docker, VS Code, npm, Turbopack, CI/CD Actions
 - **IT & Infrastructure:** Computer Networking, Hardware Maintenance, Irembo Services, System Troubleshooting
 - **Software & Office:** Microsoft Word, Excel, PowerPoint, Access, Google Workspace
 - **Languages:** Kinyarwanda – Native • English – Fluent • French – Basic
 - **Driver License:** Category B (Licensed Driver)
